REF:ISO 9001:2008 Lead Auditor Training Course

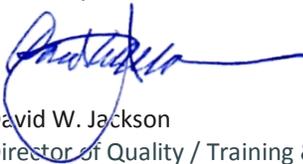

Dear Gil & Bob,

I am writing you to extend my thanks and gratitude for your support in helping reach my goal of completing ISO Lead Instructor Training course. This was a fantastic experience made possible by your solid teamwork as instructors.

Though the training event I anticipated some of the content to be dry in nature, your personal life stories included in every module really kept the attention level peaked. The mixed industry attendees really contributed to robust training event with varied experiences and best practices sharing. I look forward to applying the lessons I have learnt, and contribute more internally at MBT as we anxiously prepare to certify to the new AS9110, Rev C certification standard. I would highly recommend your company for training, consulting and products to the vast network aerospace contacts I have attained in over 25 years in the industry.

Again, I had a great week and thank you for your ongoing support, and I look forward to continuing to be in touch.

Sincerely,

David W. Jackson
